CC: Elaine Brownley/ESC/R3/USEPA/US@EPA
Subject: Blank hits for each WO - file location

Elaine is putting the Excell file for each work order (in our Dimock directory) showing the hits for the blanks and samples for each EDD. The one file will have all three EDDs...one on each sheet. She will create them right after running each EDD and name them as follows:

ex.
I:\ASQAB_AT Team\dimock rc\R3\WO 1201015 Final\Blank hit results for WO1201015.xlsx
